DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Beginning of page 1, line 5, the first paragraph has been changed as follows:

- - This application is related to co-pending, commonly assigned application Serial No. 09/577,174, now U.S. Patent 6,440,237, filed May 23, 2000 for COLD FORMED HIGH-LOAD BEARING STEEL PARTS AND PROCESS FOR FORMING SAME, the disclosure of which is incorporated herein by reference. - -

Art Unit: 3726

Remarks

2. The above Examiner's Amendment was made to reflect the issuance of the related patent application. This paragraph had been previously amended by Applicant in the response dated December 31, 2001.

3. Applicant's response dated September 1, 2004, including the affidavit of William D. Bauman, has been found persuasive. As pointed out by Applicant, U.S. Pat. 5,878,496 to Liu et al does not teach or suggest the method as claimed "wherein said end face surfaces are unmachined."

4. Applicant submitted proposed drawing corrections (in red ink) on Dec. 31, 2001, which were approved by the Examiner. See Final Office Action dated April 4, 2002. In order to avoid abandonment of the application, applicant must submit formal drawings including the agreed upon drawing changes.
